## **February 2013**

This publication provides information on students enrolled at ACT schools at 20 February 2013.

## Introduction

This publication presents the results from the ACT school census conducted on Wednesday, 20 February 2013. The census covers public, Catholic and independent schools from preschool to year 12.

This publication also presents information on the number of persons of school age who undertaking school equivalent courses through home education or the Canberra Institute of Technology.

## Student enrolments 2009 to 2013

At February census 2013, there were 68,825 students enrolled in ACT public and non-government schools (Table 1), an increase of 1,289 (1.9%) since February 2012. The overall change in the number of enrolments was a result of increases of 1,070 (2.8%) enrolments in primary schools, 207 (1.1%) enrolments in high schools and 13 (3.2%) enrolments in specialist schools. College enrolments remained at similar numbers to 2012 with a decrease of one enrolment.

## Non-school education

It is recognised that there are alternative educational pathways for students to undertake school level courses other than by attending an ACT public or non-government school. At February 2013, 166 students were home educated in the ACT. In addition, a further 198 students who were of school age undertook school equivalent courses at the Canberra Institute of Technology.

## **Explanatory Notes**

### **Reference date**

The 2013 ACT school census was conducted on Wednesday, 20 February 2013.

### **Scope and coverage**

The census includes all ACT public and non-government schools providing primary, secondary and specialist education. Jervis Bay School is included in ACT public primary schools as the Education and Training Directorate administers the Jervis Bay School for the Australian Government under a service agreement.

### **Collection**

ACT public school census data was electronically downloaded from the Directorate's centralised administrative system. Non-government school census data was electronically submitted to the Directorate.

### **Student enrolments**

The census includes students who were officially enrolled in a school on census day and who were active in a primary, secondary or specialist education program at that school.

### **Connect10**

The Connect10 program supports students to develop a personal pathway plan that may include one or more of the following goals: completion of Year 10 Certificate, transition to years 11 and 12, vocational learning, employment and/or re-engagement with high school. Students in the program are an appropriate age for year 9 or 10 and their participation must be approved by a referral panel. The length of placement is long term, designed to engage students in learning and training and transition to future pathways.

Connect10 programs are conducted at Lake Tuggeranong College (Connect10 Southern), University of Canberra Senior Secondary College Lake Ginninderra (Connect10 Northern) and Dickson College (Connect10 Central).

### **Introductory English Centres (IECs)**

Introductory English Centres (IECs) are for students who require intensive full-time English language instruction.

There are three IECs in the primary sector, conducted at North Ainslie Primary School (Northside Primary IEC), Hughes Primary School (Southside Primary IEC) and Wanniasa Hills School (Tuggeranong Primary IEC). There is one IEC in the high school sector and the college sector, conducted at Dickson College (Secondary IEC).

### **Primary school level**

The primary school level of schooling includes students from preschool to year 6 for both public and non-government schools. Preschool level data also included students who were attending a preschool program as an early entry student.

### **High school level**

High school level enrolments include those students in years 7, 8, 9 and 10.

### **College level**

College level enrolments include those students in years 11 and 12.

### **Specialist schools**

Specialist schools cater for students with a moderate to profound intellectual disability, severe Autism Spectrum Disorder or multiple disabilities who require intensive levels of support.

Cranleigh School has introduced a mainstream preschool class. Enrolments in this class were included in primary school enrolments and not included in specialist school numbers.
