## General overview

### Objectives

The Directorate works in partnership with parents and the community to ensure students are supported and engaged to achieve their full potential. The Directorate will work closely with the community to position the ACT as Australia's lifelong learning capital.

Services of the Directorate include the provision of public school education, preschool and early intervention education programs, registration of non-government schools, registration for home education, and the planning and coordination of vocational education and training. The Directorate aims to ensure that all young people in the ACT learn, thrive and are equipped with the skills to lead fulfilling, productive and responsible lives.

### Risk management

The development of the Directorate's annual Strategic Risk Management and Audit Plan identified risks that could impact on the Directorate's operations and objectives. The key risks provided below are medium to long-term risks that require ongoing monitoring and attention by the Directorate's executive and senior management.

Key risks include:

- The ongoing attraction and retention of high quality staff and the provision of a safe, inclusive and productive workplace needs to be a focus in the context of the contemporary labour market and changes to the ACT Public Service.
- Increasing demand for the integration of ICT systems as part of educational programs. Assessment of ICT systems must take into account compatibility with existing systems, technological advances, future demands and value for money. The Directorate has an ICT Committee to develop strategic plans and oversee implementation of change management policies.
- Delivery of education reforms under COAG agreements in a timely, effective and transparent manner. The Directorate has identified strategies to mitigate the risks particular to each COAG reform.

### Accounting issues

There has been no significant change in the accounting standards applicable to the Directorate's 2011-12 financial statements.

There has been a change in the accounting estimates for the calculation of the Directorate's long service leave provision which has had a significant impact on the Directorate's financial statements. In 2011-12, a rate of 106.6 percent was used to calculate the present value of the estimated future payments in comparison with

92.2 percent in 2010-11. The change in the rate used to estimate the present value significantly increased the employee benefits in the Balance Sheet, having a flow-on impact on employee expenses and the operating result.

The change in estimate was in accordance with accounting standards and was primarily due to a reduction in interest rates.

### Supplementary appropriation

In 2011-12, the Directorate received supplementation funding of \$8.5 million through a second appropriation bill relating to teaching and non-teaching enterprise bargaining agreements.

The new teaching enterprise bargaining agreement provided an average of 5.3 percent pay increase in 2011-12 followed by 3.0 and 4.0 percent in the next two years. The non-teaching enterprise bargaining agreement reflected a pay rise of 3.5 percent in 2011-12 and 2012-13.

For the purposes of the management discussion and analysis, the original budget will be amended to incorporate the supplementary appropriation.

### Directorate financial performance

Overall, the Directorate managed its activities within the 2011-12 appropriation. During this financial year, the Directorate faced cost pressures relating to increased enrolment growth, temporary relocation of Taylor Primary School and the provision of special needs transport. The Directorate managed these cost pressures through internal mitigation strategies.

Table A5.1 provides the financial information based on audited financial statements for 2010-11 and 2011-12.

**Table A5.1: Net cost of services**

	Actual 2011-12 \$m	Amended budget <sup>1</sup> 2011-12 \$m	Actual 2010-11 \$m

<b>Net cost of services</b>	<b>590.2</b>	<b>594.5</b>	<b>548.2</b>

Source: Education and Training Directorate financial statements

Note:

1. The original budget was amended to reflect the supplementary appropriation provided in 2011-12 totalling \$8.5 million.

The Directorate's net cost of services in 2011-12 decreased from the amended budget by \$4.3 million or 0.7 percent. The lower than anticipated costs primarily related to the timing of expenditure associated with national partnership programs such as Productivity Places Program, Youth Attainment and Transitions, Literacy and Numeracy and Improving Teacher Quality combined with superannuation and other savings. The lower than anticipated expenditure was offset by the increase in employee expenses due to a change in the rate used to calculate the present value of long service leave, an enrolment growth of 1,064 students in 2012, cost increases for special needs transport and the transfer of the Red Hill Preschool to the Economic Development Directorate.

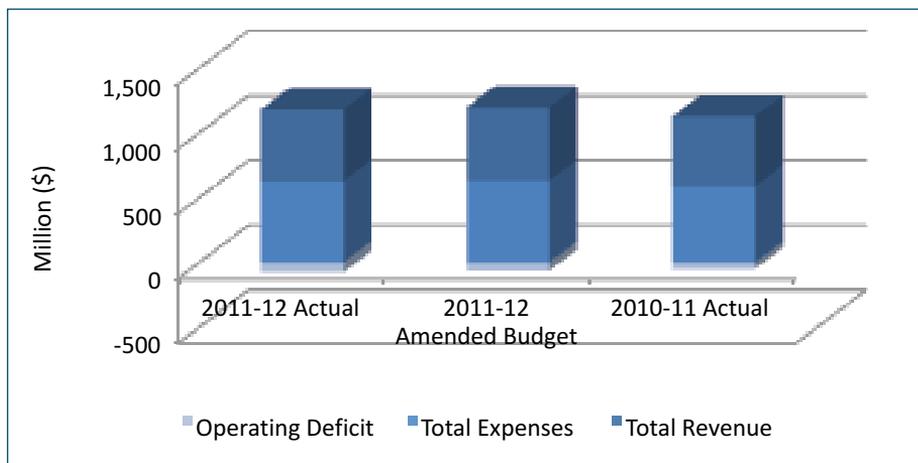

In comparison with 2010-11, there was a significant increase in the net cost of services by \$42.0 million or 7.7 percent. Higher levels of expenditure primarily related to additional costs associated with new enterprise bargaining agreements for teaching and non-teaching staff, change in long service leave provision, increase in teacher numbers to meet enrolment growth, impact of national partnership programs, increased depreciation associated with higher levels of capital investment particularly in new schools and asset revaluation.

The increase was partially offset by the rollover of unspent appropriation from the previous year associated with national partnership programs funding relating to Literacy and Numeracy and Productivity Places Program, combined with the transfer of Birrigai at Tidbinbilla infrastructure to the Territory and Municipal Services Directorate in 2010-11.

### Operating deficit

The 2011-12 financial statements provided an operating deficit of \$74.2 million for the Directorate. This represented \$14.1 million or 23.5 percent higher than the amended budget and \$27.2 million or 58.0 percent higher than 2010-11.

**Figure A5.1: Operating result**

Source: Education and Training Directorate financial statements

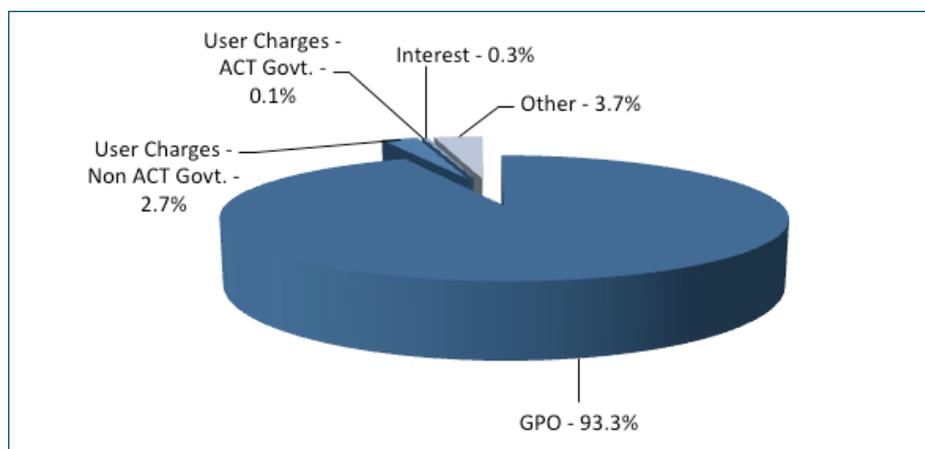

The higher than expected operating deficit against the amended budget mainly related to increased employee expenses due to a change in long service leave, as a result of a change in accounting estimate and wage increases from the teaching and non-teaching enterprise bargaining agreements.

In comparison with 2010-11, an increase in operating result primarily related to higher levels of employee expenses as explained above combined with increased depreciation due to higher levels of capital investment and asset revaluation.

## Revenue

In 2011-12, the Directorate's revenue totalled \$553.3 million, which was \$16.4 million or 2.9 percent lower than the amended budget. In comparison with 2010-11, revenue increased by \$12.3 million or 2.3 percent.

Figure A5.2: Revenue

Source: Education and Training Directorate financial statements

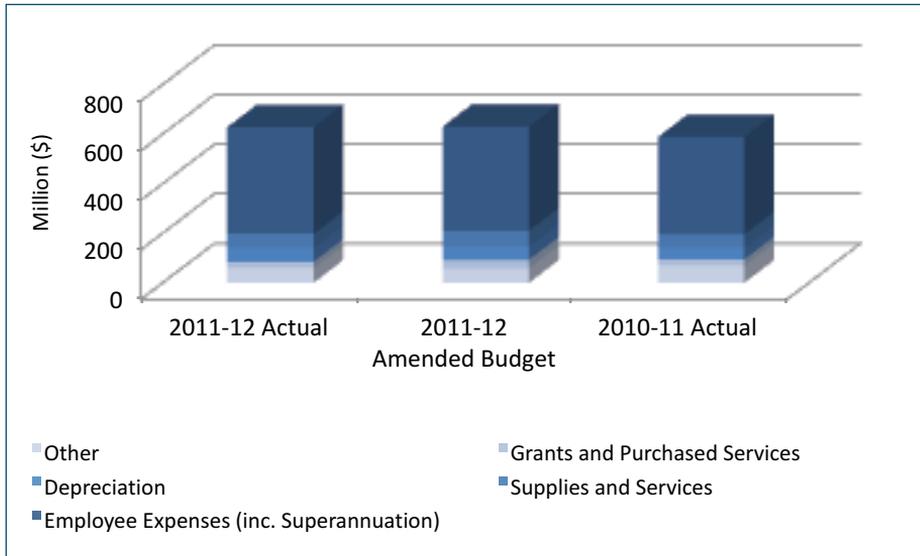

The lower than anticipated revenue of \$16.4 million from the amended budget primarily related to the rollover of unspent Government Payments for Outputs (GPO) appropriation from 2011-12 to 2012-13 for national partnership programs such as Productivity Places Program, Youth Attainment and Transitions, Improving Teacher Quality and Literacy and Numeracy. Further reduction in revenue related to superannuation and other savings partially offset by higher than budgeted levels of schools revenues primarily relating to activities such as overseas excursions and hire of facilities.

Increased revenue from 2010-11 mainly related to additional funding associated with the new enterprise agreements for teaching and non-teaching staff and budget initiatives relating to students with special needs, digital learning and flow on impact of operational funding relating to Gungahlin College and Namadgi School. This was partially offset by the rollovers of unspent funding from the previous year associated with national partnership programs and savings initiatives.

## Expenses

In 2011-12, expenditure totalled \$627.4 million and comprised of employees costs, supplies and services, grants and purchased services, depreciation, schools and borrowing costs. According to Figure A5.3, employee related expenses including superannuation comprised 69 percent of the total expenditure.

**Figure A5.3: Expenses**

Source: Education and Training Directorate financial statements

Total expenditure was \$2.3 million or 0.4 percent lower than the amended budget primarily due to lower than anticipated expenditure for national partnership programs such as Productivity Places Programs, Youth Attainment and Transitions, Improving Teacher Quality and Literacy and Numeracy, and superannuation and other savings. This was partially offset by higher than anticipated employee costs due to a change in the rate used to calculate the present value of long service leave, enrolment growth, special needs transport and the transfer of the Red Hill Preschool to the Economic Development Directorate.

In comparison with the previous year, total expenditure increased by \$39.7 million or 6.8 percent mainly relating to additional costs associated with new enterprise bargaining agreements for teaching and non-teaching staff, the impact of the change in the rate used to calculate the present value of long service leave, enrolment growth, higher levels of Commonwealth grants and increased depreciation due to higher levels of capital investment and asset revaluation.

The increase was offset by the rollover of unspent appropriation from the prior year associated with national partnership programs, in particular relating to Productivity Places Program and Literacy and Numeracy, combined with the transfer of Birrigai at Tidbinbilla infrastructure to the Territory and Municipal Services Directorate in 2010-11.

**Table A5.2: Line item explanation of significant variances from the amended budget – Directorate operating statement**

Notes:

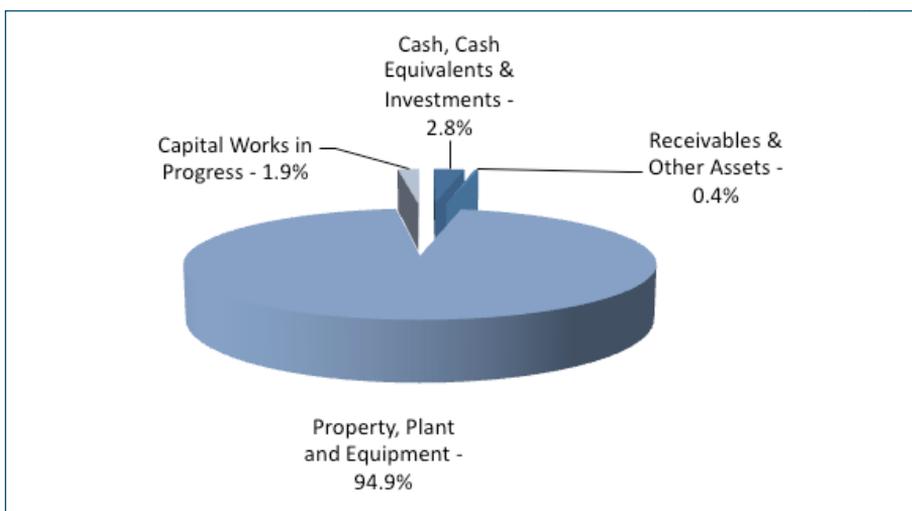

1. The original budget is amended to reflect the supplementary appropriation provided in 2011-12 totalling \$8.5m.
2. Reduction primarily relates to the timing of expenditure associated with national partnership programs, with the unspent appropriation being rolled over for expenditure in 2012-13. These national partnership programs primarily related to Productivity Places Program, Youth Attainment and Transitions, Improving Teacher Quality, Literacy and Numeracy, Empowering Local Schools and Student with Disabilities. The appropriation is further reduced by superannuation and other savings.
3. Higher than anticipated revenue relates to specific purpose grants relating to Mental Health initiative and Health Curriculum funded by the Health Directorate.
4. Decrease primarily relates to Commonwealth Own Purpose grants relating to Industry Skill Centres and Joint Group Training which have been funded as national partnership programs in 2011-12. Funding for these programs has been provided to the Directorate as Government Payments for Outputs.
5. Higher than anticipated revenue mainly relates to schools activities primarily associated with excursions and hire of facilities.
6. Increase primarily relates to change of employee provisions due to a change in long service leave estimates, increased provisions resulting from the teaching and non-teaching enterprise bargaining agreements, and enrolment growth. This is partially offset by rollover of national partnership programs and lower than anticipated casual salaries.
7. Lower than anticipated costs compared to budget relate to superannuation savings due to reduced numbers of employees in higher cost superannuation schemes including the CSS and PSS.
8. Decrease relates to timing of expenditure associated with national partnership programs and other specific projects, reduced costs associated with ICT and professional development funds. This is partially offset by increased costs associated with special needs transport.

9. Higher than anticipated expenditure mainly relates to the impact associated with asset revaluation.
10. Reduction primarily relates to timing of expenditure associated with Productivity Places Programs, Youth Attainment and Transition, Industry Skill Centres and Joint Group Training programs.
11. Increase mainly relates to the transfer of the Red Hill Preschool to the Economic Development Directorate, partially offset by timing of schools expenditure associated with excursions.

## Total assets

The Directorate held 95 percent of its assets in property, plant and equipment, and 5 percent related to cash and cash equivalents, capital works in progress, receivables and other current assets.

**Figure A5.4: Total assets**

Source: Education and Training Directorate financial statements

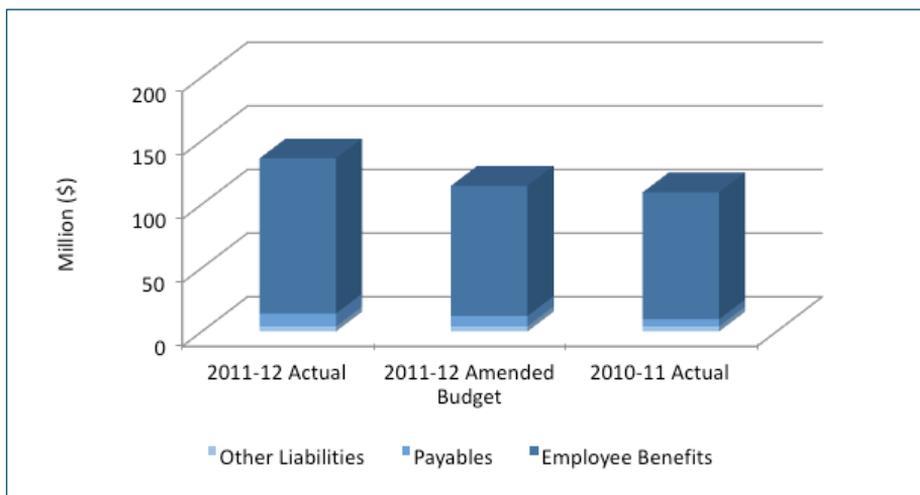

In 2011-12, assets totalled \$1,979.6 million. This represented a decrease of \$144.1 million or 6.8 percent over budget mainly due to the flow on impact from 2010-11 audited outcome in relation to asset revaluation and deferral of capital works projects to 2012-13, combined with timing of expenditure associated with the Commonwealth Digital Education Revolution and schools bank balances.

Total assets increased by \$40.2 million or 2.1 percent from the same period last year primarily due to the completion of capital works projects, higher levels of cash associated with timing of payments and also reflected by high levels of liabilities. The increase was partially offset by depreciation, impairment of Taylor Primary School and transfer of the Red Hill Preschool to the Economic Development Directorate.

## Total liabilities

The Directorate's liabilities comprised of employee benefits, payables finance leases and make good provision. The majority of the Directorate's liabilities related to employee benefits (89.6 percent) and payables (7.5 percent).

**Figure A5.5: Total liabilities**

Source: Education and Training Directorate financial statements

At 30 June 2012, liabilities for the Directorate totalled \$136.0 million. This represented an increase of \$21.5 million or 18.7 percent over the amended budget, primarily due to increase in employee benefits associated with the change in the rate used to calculate long service leave and increased provisions resulting from the new enterprise bargaining agreement for teaching and non-teaching staff.

In comparison with 2010-11, total liabilities increased by \$26.7 million or 24.4 percent primarily associated with employee benefits as discussed above combined with increase in payables/accruals mainly relating to capital works.

**Table A5.3: Line item explanation of significant variances from the amended budget - Directorate balance sheet**

Source: Education and Training Directorate financial statements

Notes:

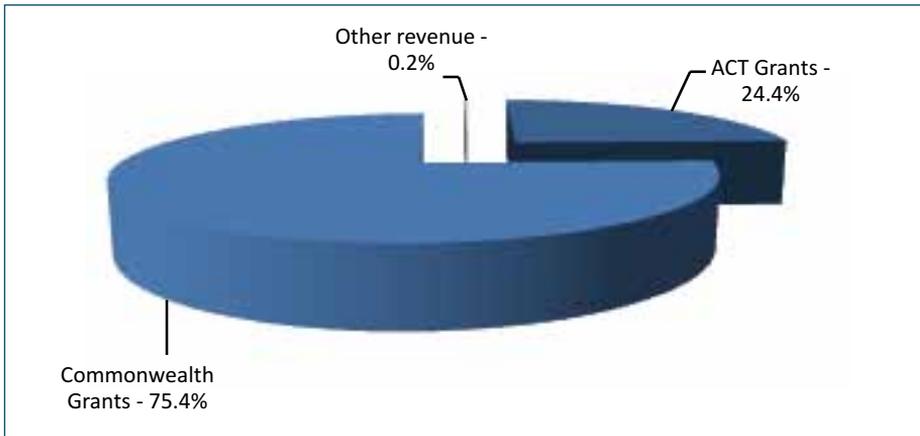

1. Amended budget is consistent with original budget as no supplementary appropriation was provided.
2. The increase primarily relates to higher than anticipated cash balances relating to the Commonwealth Digital Education Revolution program and increased schools bank balances.
3. Lower than anticipated levels of receivable mainly relates to the input tax credit from the Australian Taxation Office.
4. Decrease in property, plant and equipment primarily relates to the flow-on impact of 2010-11 audited outcome associated with asset revaluation. This is combined with deferral of capital works activities such as Canberra Performing Arts Centre, preschools expansion and ICT projects. This is further reduced by the impairment of Taylor Primary school and transfer of the Red Hill Preschool to the Economic Development Directorate.
5. Increase in capital works in progress primarily relates to the timing of completion of capital works projects. The works in progress mainly relates to new school projects for Bonner Primary and Franklin Early Childhoods Schools.
6. Higher than anticipated payables primarily relate to capital works accruals for Bonner Primary and Canberra College Performing Arts Centre.
7. The higher than anticipated employee benefits is mainly associated with the change in estimates for long service leave and the impact of the new enterprise bargaining agreements for teaching and non-teaching staff.

## Territorial financial performance

### Territorial revenue

Total income received includes Revenue for Expenses on Behalf of the Territory, primarily for the provision of grants to non-government schools.

**Figure A5.6: Territorial revenue**

Source: Education and Training Directorate financial statements

Territorial revenue mainly comprised of funding for non-government schools from the Australian and ACT Government. It also included ACT Government funding for the Secondary Bursary Scheme and Block Release Programs.

In 2011-12, Territorial revenue totalled \$195.1 million, a decrease of \$1.7 million or 0.9 percent from the 2011-12 budget. The decrease in funding primarily related to the rollover of unspent appropriation for interest subsidy scheme funding to 2012-13.

In comparison with 2010-11, total revenue decreased by \$17.6 million or 8.3 percent mainly due to the finalisation of the Building the Education Revolution program partially offset by increase in general recurrent grants for non-government schools.

### **Territorial expenditure**

Territorial expenditure other than transfers of fees to the Territorial Banking Account comprised grant payments to non-government schools (\$194.7 million), the Secondary Bursary Scheme (\$0.3 million) and Block Release grants (\$0.1 million).

Lower than anticipated expenditure from the budget primarily related to the rollover of unspent appropriation for interest subsidy scheme funding to 2012-13.

In 2011-12, expenditure decreased by \$17.6 million or 8.3 percent from 2010-11 mainly due to the finalisation of the Building the Education Revolution program partially offset by increase in general recurrent grants for non-government schools.

Ms Diane Joseph  
Director-General  
Education and Training Directorate  
Level 6, 220 Northbourne Avenue  
BRADDON ACT 2612

Dear Ms Joseph *Diane*

**AUDIT REPORT - EDUCATION AND TRAINING DIRECTORATE  
FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012**

The Audit Office has completed the audit of the financial statements of the Education and Training Directorate for the year ended 30 June 2012.

I have attached the audited financial statements and unqualified audit report.

I have provided a copy of the financial statements and audit report to the Minister for Education and Training, Dr Chris Bourke MLA.

Yours sincerely

Dr Maxine Cooper  
Auditor-General

Mr Dougal Wilson, Manager, Risk Management and Audit

## ACT AUDITOR-GENERAL'S OFFICE

### INDEPENDENT AUDIT REPORT EDUCATION AND TRAINING DIRECTORATE

#### To the Members of the ACT Legislative Assembly

#### Report on the financial statements

The financial statements of the Education and Training Directorate (the Directorate) have been audited. These comprise the following financial statements and accompanying notes:

- Controlled financial statements - operating statement, balance sheet, statement of changes in equity, cash flow statement and statement of appropriation.
- Territorial financial statements – statement of income and expenses on behalf of the Territory, statement of assets and liabilities on behalf of the Territory, cash flow statement on behalf of the Territory and territorial statement of appropriation.

#### Responsibility for the financial statements

The Director-General of the Directorate is responsible for the preparation and fair presentation of the financial statements in accordance with the *Financial Management Act 1996*. This includes responsibility for maintaining adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and the accounting policies and estimates used in the preparation of the financial statements.

#### The auditor's responsibility

Under the *Financial Management Act 1996*, I am responsible for expressing an independent audit opinion on the financial statements of the Directorate.

The audit was conducted in accordance with Australian Auditing Standards to obtain reasonable assurance that the financial statements are free of material misstatement.

I formed the audit opinion following the use of audit procedures to obtain evidence about the amounts and disclosures in the financial statements. As these procedures are influenced by the use of professional judgement, selective testing of evidence supporting the amounts and other disclosures in the financial statements, inherent limitations of internal control and the availability of persuasive rather than conclusive evidence, an audit cannot guarantee that all material misstatements have been detected.

Although the effectiveness of internal controls is considered when determining the nature and extent of audit procedures, the audit was not designed to provide assurance on internal controls.

### **Electronic presentation of the audited financial statements**

Those viewing an electronic presentation of these financial statements should note that the audit does not provide assurance on the integrity of information presented electronically and does not provide an opinion on any other information which may have been hyperlinked to or from these financial statements. If users of these statements are concerned with the inherent risks arising from the electronic presentation of information, they are advised to refer to the printed copy of the audited financial statements to confirm the accuracy of this electronically presented information.

### **Independence**

Applicable independence requirements of Australian professional ethical pronouncements were followed in conducting the audit.

### **Audit opinion**

In my opinion, the financial statements of the Directorate for the year ended 30 June 2012:

- (i) are presented in accordance with the *Financial Management Act 1996*, Australian Accounting Standards and other mandatory financial reporting requirements in Australia; and
- (ii) present fairly the financial position of the Directorate as at 30 June 2012 and the results of its operations and cash flows for the year then ended.

The audit opinion should be read in conjunction with other information disclosed in this report.

**Notes:**

1. The difference between the original budget and total appropriated relates to the supplementary appropriation for the teaching and clerical enterprise bargaining agreements (\$8.515m), amount transferred from 2010-11 (\$4.210m) mainly associated with Commonwealth National Partnership funding and new Commonwealth grants (\$4.719m) primarily for National Partnership Agreements for More Support for Students with a Disability, Empowering Local Schools and Reward for Great Teachers.

The difference between the total appropriated and appropriation drawn mainly relates to the funds transferred into 2012-13 (\$23.579m), mainly associated with National Partnerships including the Productivity Places Program, Literacy and Numeracy and Improving Teacher Quality as well as new National Partnership Programs relating to Empowering Local Schools, Support for Students with a Disability and Reward for Great Teachers. In addition, superannuation and other savings (\$3.706m) contributed to the lower drawdown.

2. The difference between the original budget and the total appropriated relates to the rollover of funds from 2010-11 (\$12.384m) primarily for capital upgrades, Harrison Secondary School and Gungahlin College and higher than expected Commonwealth grants (\$0.068m) for the National Solar Schools National Partnership.

The difference between the total appropriated and appropriation drawn relates to capital works deferrals and accrued expenditure not drawdown in cash (\$25.318m) including Canberra College Performing Arts Centre, Franklin Early Childhood School, Universal Access to Preschools, Red Hill Primary School Expansion and Digital Learning and lower than anticipated Commonwealth grants (\$2.590m) for Trade Training Centres.

**EDUCATION AND TRAINING DIRECTORATE  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2012**

**1. OBJECTIVES OF THE DIRECTORATE**

**a) Operations and Principal Activities**

The Education and Training Directorate (the Directorate) works in partnership with parents and the community to ensure students are supported and engaged to achieve their full potential. The Directorate will work closely with the community to position the ACT as Australia's lifelong learning capital.

Services of the Directorate include the provision of public school education, preschool and early intervention education programs, registration of non-government schools, registration for home education and the planning and coordination of vocational education and training.

The Directorate aims to ensure that all young people in the ACT learn, thrive and are equipped with the skills to lead fulfilling, productive and responsible lives.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**a) Basis of Accounting**

The *Financial Management Act 1996* (FMA) requires the preparation of annual financial statements for the Directorate.

The FMA and the Financial Management Guidelines issued under the Act, require the Directorate's financial statements to include:

- (i) an Operating Statement for the year;
- (ii) a Balance Sheet at the end of the year;
- (iii) a Statement of Changes in Equity for the year;
- (iv) a Cash Flow Statement for the year;
- (v) a Statement of Appropriation for the year;
- (vi) an Operating Statement for each class of output for the year;
- (vii) a summary of the significant accounting policies adopted for the year; and
- (viii) such other statements as necessary to fairly reflect the financial operations of the Directorate during the year and its financial position at the end of the year.

These general-purpose financial statements have been prepared in accordance with 'Generally Accepted Accounting Principles' (GAAP) as required by the FMA. The financial statements have been prepared in accordance with:

- (i) Australian Accounting Standards; and
- (ii) ACT Accounting and Disclosure Policies.

**EDUCATION AND TRAINING DIRECTORATE**  
**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2012**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**a) Basis of Accounting - Continued**

The financial statements have been prepared using the accrual basis of accounting, which recognises the effects of transactions and events when they occur. The financial statements have also been prepared according to the historical cost convention, except for assets which were valued in accordance with the revaluation policies applicable to the Directorate during the reporting period.

These financial statements are presented in Australian dollars, which is the Directorate's functional currency.

The Directorate is an individual reporting entity.

**b) Controlled and Territorial Items**

The Directorate produces Controlled and Territorial financial statements. The Controlled financial statements include income, expenses, assets and liabilities over which the Directorate has control. The Territorial financial statements include income, expenses, assets and liabilities that the Directorate administers on behalf of the ACT Government, but does not control.

The purpose of the distinction between Controlled and Territorial is to enable an assessment of the Directorate's performance against the decisions it has made in relation to the resources it controls, while maintaining accountability for all resources under its responsibility.

The basis of accounting described in paragraph (a) above applies to both Controlled and Territorial financial statements except where otherwise specified.

**c) The Reporting Period**

These financial statements state the financial performance, changes in equity and cash flows of the Directorate for the year ending 30 June 2012, together with the financial position of the Directorate as at 30 June 2012.

**d) Comparative Figures**

*Budget Figures*

To facilitate a comparison with the Budget Papers, as required by the *Financial Management Act 1996 (FMA)*, budget information for 2011-2012 has been presented in the financial statements. Budget numbers in the financial statements are the original budget numbers that appear in the Budget Papers.

*Prior Year Comparatives*

Comparative information has been disclosed in respect of the previous period for amounts reported in the financial statements, except where an Australian Accounting Standard does not require comparative information to be disclosed.

Where the presentation or classification of items in the financial statements is amended, the comparative amounts have been reclassified where practical. Where a reclassification has occurred, the nature, amount and reason for the reclassification is provided.

**e) Rounding**

All amounts in the financial statements have been rounded to the nearest thousand dollars (\$'000). Use of the "-" symbol represents zero amounts or amounts rounded up or down to zero.

**EDUCATION AND TRAINING DIRECTORATE  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2012**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**f) Revenue Recognition**

Revenue is recognised at the fair value of the consideration received or receivable in the Operating Statement. All revenue is recognised to the extent that it is probable that the economic benefits will flow to the Directorate and the revenue can be reliably measured. In addition, specific recognition criterion applies to the following:

*Interest*

Interest revenue is recognised using the effective interest method.

*Distribution*

Distribution revenue is received from Investments with the Territory Banking Account. This is recognised on an accrual basis using data supplied by the Territory Banking Account.

**g) Resources Received Free of Charge**

Resources received free of charge are recorded as a revenue and expense in the Operating Statement at fair value. The revenue is separately disclosed under resources received free of charge, with the expense being recorded in the line item to which it relates. Assets received free of charge as a result of administrative restructure are recorded as a net increase in assets from administrative restructure.

**h) Repairs and Maintenance**

The Directorate undertakes major cyclical maintenance on its assets. Where the maintenance leads to an upgrade of the asset that increases the service potential of the existing asset the cost is capitalised. Maintenance expenses which do not increase the service potential of the asset are expensed.

**i) Borrowing Costs**

Borrowing costs relate to finance leases. Borrowing costs are expensed in the period in which they are incurred.

**j) Waivers of Debt**

Debts are waived under section 131 of the *Financial Management Act 1996* and are expensed during the year in which the right of payment was waived. Further details are disclosed in **Note 20 - Act of Grace Payments, Waivers and Write-offs**.

**k) Current and Non-Current Items**

Assets and liabilities are classified as current or non-current in the Balance Sheet and in relevant notes. Assets are classified as current where they are expected to be realised within 12 months after the reporting date. Liabilities are classified as current when they are due to be settled within 12 months after the reporting date or the Directorate does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Assets or liabilities not classified as current are classified as non-current.

**EDUCATION AND TRAINING DIRECTORATE  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2012**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**l) Impairment of Assets**

The Directorate assesses, at each reporting date, whether there is any indication that an asset may be impaired. Assets are also reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable. An impairment loss is the amount by which the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of the asset's 'fair value less the cost to sell' and its 'value in use'.

An asset's 'value in use' is its depreciated replacement cost, where the asset would be replaced if the Directorate were deprived of it.

If a material impairment loss results, the loss is recognised against the relevant class of asset in the Asset Revaluation Surplus with corresponding reduction to the carrying amount of asset in the Balance Sheet. Where the impairment loss is greater than the balance in the Asset Revaluation Surplus, the difference is expensed in the Operating Statement.

**m) Cash and Cash Equivalents**

For the purposes of the Cash Flow Statement and Balance Sheet, cash includes cash at bank and cash on hand. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are included in cash and cash equivalents in the Cash Flow Statement and are included as borrowings in the Balance Sheet.

**n) Receivables**

Accounts receivable (including both trade receivables and other trade receivables) are initially recognised at fair value and are subsequently measured at amortised cost, with any adjustments to the carrying amount going through the Operating Statement.

The allowance for impairment losses represents the amount of trade receivables and other trade receivables the Directorate estimates will not be repaid. The allowance for impairment losses is based on objective evidence and a review of overdue balances. The Directorate considers the following is objective evidence of impairment:

- becoming aware of financial difficulties of debtors;
- default payments; or
- debts more than 90 days overdue.

The amount of the allowance is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial. The amount of allowance is recognised in the Operating Statement. The allowance for impairment losses are written back against receivables account when the Directorate ceases to collect the debt as it considers that it will cost more to recover than the debt is worth.

**o) Investments**

Short-term investments are held with the Territory banking Account in a unit trust called the Cash Enhanced Portfolio. Long-term investments are held with the Territory Banking Account in a unit trust called the Fixed Interest Portfolio. The price of units in both these unit trusts fluctuate in value. The net gains or losses do not include interest or dividend income.

**EDUCATION AND TRAINING DIRECTORATE  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2012**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**o) Investments – Continued**

These short-term and long-term investments are measured at fair value with any adjustments to the carrying amount recorded in the Operating Statement. Fair value is based on an underlying pool of investments which have quoted market prices at the reporting date.

**p) Acquisition and Recognition of Property, Plant and Equipment**

Property, plant and equipment are initially recorded at cost when they are acquired.

Where property, plant and equipment are acquired at no cost, or minimal cost, cost is its fair value as at the date of acquisition. However property, plant and equipment acquired at no cost or minimal cost as part of a Restructuring of Administrative Arrangements is measured at the transferor's book value.

Property, plant and equipment with a minimum value of \$2,000 (exclusive of GST) are capitalised. Assets below \$2,000 are expensed in the reporting period of purchase. Assets that are individually below the threshold, but for which the aggregate value is material, may be capitalised depending on the nature of the assets.

**q) Measurement of Property, Plant and Equipment after Initial Recognition**

Land and buildings are measured at fair value. Plant and equipment including leasehold improvements are measured at cost. Land and buildings are revalued every three years.

Fair value is the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction. Fair value is measured using a market price in an active market where a market price is available for that asset (or a similar asset), as this is the best evidence of an asset's fair value. Where the market price for an asset cannot be obtained because the asset is specialised and is rarely sold, and where the asset would be replaced if the Directorate were to be deprived of the asset, depreciated replacement cost is used as fair value. Where the asset would not be replaced, the fair value is the asset's selling price, less costs to sell.

In the Directorate's case, land and buildings are held for their value in use rather than the asset's ability to generate net cash flows and it would be replaced if the Directorate was deprived of the asset. Based on the above, fair value of buildings is determined by the depreciated replacement cost while the fair value of land is based on current market prices.

**r) Depreciation of Non-Current Assets**

Non-current assets with a limited useful life are systematically depreciated over their useful lives in a manner that reflects the consumption of their service potential.

Land has an unlimited useful life and is therefore not depreciated.

Depreciation for non-current assets is determined as follows:

<b>Class of Asset</b>	<b>Depreciation Method</b>	<b>Useful Life</b>
Buildings and Land Improvements	Straight Line	50 years
Leasehold Improvements	Straight Line	5 years
Plant and Equipment	Straight Line	5-20 years
Leased Assets	Straight Line	2-20 years

The aggregate amount of depreciation allocated for each class of asset during the reporting period is disclosed in **Note 15 – Depreciation**.

**EDUCATION AND TRAINING DIRECTORATE  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2012**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**s) Payables**

Payables include Trade Payables and Accrued Expenses.

Trade Payables represent the amounts owing for goods and services received prior to the end of the reporting period and unpaid at the end of the reporting period and relating to the normal operations of the Directorate. Accrued Expenses represent goods and services provided by other parties during the period that are unpaid at the end of the reporting period and where an invoice has not been received by period end.

**t) Joint Venture**

The Directorate is a venturer in a joint venture operation with the Catholic Education Office at Gold Creek Primary and its share of assets, liabilities, income and expenses has been recognised in the Directorate's financial statements under the appropriate headings consistent with AASB 131 'Interest in Joint Ventures'. Please refer to **Note 37 – Interest in Joint Venture** for details.

**u) Leases**

The Directorate has entered into finance leases and operating leases.

*Finance Leases*

Finance leases effectively transfer to the Directorate substantially all the risks and rewards incidental to ownership of the assets under finance lease. The Directorate's finance leases mainly relate to office equipment and motor vehicles. Finance leases are initially recognised as an asset and a liability at the lower of the fair value of the asset and the present value of the minimum lease payments each being determined at the inception of the lease. Assets under finance lease are depreciated over the shorter of the asset's useful life and lease term. Leased assets are depreciated on a straight-line basis. The depreciation is calculated after first deducting any residual values which remain for each leased asset. Each lease payment is allocated between interest expense and reduction of the lease liability. Lease liabilities are classified as current and non-current.

*Operating Leases*

Operating leases do not effectively transfer to the Directorate substantially the entire risks and rewards incidental to ownership of the asset under operating lease. Operating lease payments are recorded as an expense in the Operating Statement on a straight-line basis over the term of the lease.

**v) Employee Benefits**

Employee benefits include wages and salaries, annual leave, long service leave and applicable on-costs. On-costs include annual leave, long service leave, superannuation and other costs that are incurred when employees take annual leave and long service leave. These benefits accrue as a result of services provided by employees up to the reporting date that remain unpaid. Accrued wages and salaries are measured at the amount that remains unpaid to employees at the end of the reporting period.

The measurement of annual and long service leave liabilities is based on the timing of the expected leave taken. Annual and long service leave expected to be taken in the next 12 months are measured based on the nominal amounts of remuneration anticipated to be paid when the leave is taken. The nominal amount is estimated with regard to the rates expected to be paid on settlement of the liability.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**v) Employee Benefits – Continued**

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in the future years by employees of the Directorate is estimated to be less than the annual entitlement for sick leave.

Annual and long service leave, including applicable on-costs, that do not fall due in the next 12 months is measured at the present value of estimated future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to the future wage and salary levels, experience of employee departures and periods of service. At each reporting date, the present value of future payments are estimated using market yields on Commonwealth Government bonds with terms to maturity that match, as closely as possible, the estimated future cash flows. In 2011-12, the rate used to estimate the present value of these future payments is 106.6% (92.2% in 2010-11).

The long service leave liability is estimated with reference to the minimum period of qualifying service. For employees with less than the required minimum period of 7 years qualifying service, the probability that employees will reach the required minimum period has been taken into account in estimating the provision for long service leave and the applicable on-costs.

The provision for annual leave and long service leave includes estimated on-costs. As these on-costs only become payable if the employee takes annual and long service leave while in-service, the probability that employees will take annual and long service leave while in service has been taken into account in estimating the liability for on-costs.

Annual and long service leave liabilities are classified as current liabilities in the Balance Sheet where the Directorate does not have an unconditional right to defer the settlement of the liability for at least 12 months. However, where there is an unconditional right to defer settlement of the liability for at least 12 months, annual leave and long service leave have been classified as a non-current liability in the Balance Sheet.

**w) Superannuation**

The Directorate receives funding for superannuation payments as part of the Government Payment for Outputs. The Directorate then makes payments on a fortnightly basis to the Territory Banking Account, to cover the Directorate's superannuation liability for the Commonwealth Superannuation Scheme (CSS) and the Public Sector Superannuation Scheme (PSS) on a fortnightly basis. This payment covers the CSS/PSS employer contribution, but does not include the productivity component. The productivity component is paid directly to ComSuper by the Directorate. The CSS and PSS are defined benefit superannuation plans meaning that the defined benefits received by employees are based on the employee's years of service and average final salary.

Superannuation payments have also been made directly to superannuation funds for those members of the Public Sector who are part of superannuation accumulation schemes. This includes the Public Sector Superannuation Scheme Accumulation Plan (PSSAP) and schemes of employee choice.

Superannuation employer contribution payments, for the CSS and PSS, are calculated, by taking the salary level at an employee's anniversary date and multiplying it by the actuarially assessed nominal CSS or PSS employer contribution rate for each employee. The productivity component payments are calculated by taking the salary level, at an employee's anniversary date, and multiplying it by the employer contribution rate (approximately 3%) for each employee. Superannuation payments for the PSSAP are calculated by taking the salary level, at an employee's anniversary date, and multiplying it by the appropriate employer contribution rate. Superannuation payments for fund of choice arrangements are calculated by taking an employee's salary each pay and multiplying it by the appropriate employer contribution rate.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**w) Superannuation – Continued**

A superannuation liability is not recognised in the Balance Sheet as the Superannuation Provision Account recognises the total Territory superannuation liability for the CSS and PSS, and ComSuper and the external schemes recognise the superannuation liability for the PSSAP and other schemes respectively.

**x) Equity Contributed by the ACT Government**

Contributions made by the ACT Government, through its role as owner of the Directorate that increase the net assets of the Directorate, are treated as contributions of equity.

Increases or decreases in net assets as a result of Administrative Restructures are also recognised in equity.

**y) Insurance**

The Directorate insures its major risks through the ACT Insurance Authority. The excess payable under this arrangement varies depending on each class of insurance held by the Directorate.

**z) Taxation**

The Directorate's activities are exempt from all forms of taxation except Fringe Benefits Tax and Goods and Services Tax (GST). The amount of Fringe Benefit Tax paid in the year was \$0.116 million (\$0.149 million; 2010-11). This amount is included in the Operating Statement under employee expenses.

Revenue, expenses and assets are recognised net of GST:

- except to the extent that the amount of GST incurred by a purchaser is not recoverable from the Australian Taxation Office.

Cash flows relating to GST are included in the Cash Flow Statement on a gross basis. The GST component of cash flows arising from investing and financing activities that are recoverable from, or payable to, the Australian Taxation Office are classified as operating cash flows. The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included as part of receivables or payables in the Balance Sheet.

**aa) Contingent Liabilities and Assets**

Contingent liabilities include all provisions not meeting both of the recognition criteria of a liability. These criteria are: whether it is probable that the future sacrifice of economic benefits will be required; and whether the amount of the liability can be measured reliably. Contingent assets include any assets that do not meet both of the recognition criteria for an asset. These criteria are: whether it is probable that the future economic benefits embodied in the asset will eventuate; and the asset possesses a cost or other value that can be measured reliably. The contingent liabilities are disclosed in **Note 35 – Contingent Liabilities**. There are no contingent assets.

**ab) Significant Accounting Judgements and Estimates**

In the process of applying the accounting policies listed in this note, the Directorate has made the following judgements and estimates that have the most significant impact on the amounts recorded in the financial statements:

- a) *Fair Value of Land and Buildings*: The Directorate has made a significant judgement regarding the fair value of its land and buildings. Land has been recorded at the market value of similar properties as determined by an independent valuer. Buildings are valued at depreciated replacement cost.
- b) *Employee Benefits*: Significant judgements have been applied in estimating the liability for employee benefits. The estimated liability for employee benefits requires a consideration of the future wage and salary levels, experience of employee departures and periods of service. The estimate also includes an assessment of the probability that employees will meet the minimum service period required to qualify for long service leave and that on-costs will become payable. Further information on this estimate is provided in **Note 2 (v) – Employee Benefits** and **3 (a) – Change in Accounting Estimates**.
- c) *Estimation of Useful Lives of Property, Plant & Equipment*: The Directorate disclosed that Property, Plant and Equipment is systematically depreciated over its estimated useful life. The estimated useful life of Property, Plant and Equipment is reassessed each year and adjusted when the condition and other factors affecting the useful life of Property, Plant and Equipment indicate an adjustment is warranted.
- d) *Impairment*: The Directorate disclosed that Property, Plant and Equipment is annually assessed for impairment. If this assessment indicates an asset is impaired, then an assessment of the asset's recoverable amount must be estimated to determine whether an impairment loss must be recognised. For 2011-12, the Directorate has undertaken assessment in relation to the school buildings and other property plant and equipment. The Directorate's impairment policy states that schools buildings used at less than 65% capacity are impaired. An adjustment is reflected in the financial statements if the overall impact is material.

**ac) After Balance Date Events**

There are no known events occurring after 30 June 2012 that will materially affect the financial statements.

**ad) Going Concern**

The Directorate's ability to fund its ongoing operations is dependent upon continued ACT Government appropriations.

**a) Impact of Accounting Standards Issued but yet to be Applied**

The following new and revised accounting standards and interpretations that are applicable to the Directorate have been issued by the Australian Accounting Standards Board but do not apply to the current reporting period. These standards and interpretations are applicable to future reporting periods. The Directorate does not intend to adopt these standards and interpretations early. Where applicable, these Australian Accounting Standards will be adopted from their application date. It is estimated that the effect of adopting the below pronouncements, when applicable, will have no material financial impact on the Directorate in future reporting periods:

- AASB 9 Financial Instruments (application date 1 January 2013);
- AASB 10 Consolidated Financial Statements (application date 1 January 2013);
- AASB 11 Joint Arrangements (application date 1 January 2013);
- AASB 12 Disclosure of Interests in Other Entities (application date 1 January 2013);
- AASB 13 Fair Value Measurement (application date 1 January 2013);
- AASB 119 Employee Benefits (application date 1 January 2013);
- AASB 127 Separate Financial Statements (application date 1 January 2013);
- AASB 128 Investments in Associates and Joint Ventures (application date 1 January 2013);
- AASB 2010-7 Amendments to Australian Accounting Standard arising from AASB 9 (application date 1 January 2013);
- AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards (application date 1 January 2013);
- AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 (application date 1 January 2013);
- AASB 2011-9 Amendments to Australian Accounting Standards – Presentation of Items of Other Comprehensive Income (application date 1 July 2012); and
- AASB 2011-10 Amendments to Australian Accounting Standards arising from AASB 119 (application date 1 January 2013).

**3. CHANGES IN ACCOUNTING POLICY AND ACCOUNTING ESTIMATES**

**a) Change in Accounting Estimates**

As disclosed in **Note 2 (v) – Employee Benefits**, annual leave and long service leave, including applicable on-costs that do not fall due in the next 12 months are measured at the present value of estimated payments to be made in respect of services provided by employees up to the reporting date. The present value of future payments is estimated using the Commonwealth Bond rate.

Last financial year the rate used to estimate the present value was 92.2%, however, due to a change in the Commonwealth Bond rate the rate is now 106.6%. As such the estimate of the long service leave liabilities has changed. This change has resulted in an increase to the estimate of the long service leave liability and expense in the current reporting period of \$10.389 million. There was no change to annual leave liabilities as they are classified as current.

**b) Change in Accounting Policy**

There have been no changes to accounting policy in 2011-12.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2012**

**36. Financial Instruments - Continued**

**Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Directorate's financial assets consist of cash and cash equivalents, investments and receivables and its financial liabilities are comprised of payables and finance leases. The Directorate's maximum exposure to interest rate risk relating to these financial assets and liabilities is shown below in the table later in this note on 'Maturity Analysis and Exposure to Interest Rates'.

As receivables and payables are held in non-interest bearing arrangements and finance leases are held in fixed interest arrangements, the Directorate is not exposed to movements in interest rates in respect of these financial assets and liabilities.

A significant proportion of the Directorate's financial assets consist of cash and cash equivalents. As these are held in floating interest arrangements with the Territory's Banking Provider, the Directorate is exposed to movements in the amount of interest it may earn on cash and cash equivalents.

As the Directorate's operating cash flows are not significantly dependant on interest earned from cash and cash equivalents, a sensitivity analysis of interest rate risk has not been performed.

**Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Financial assets consist of cash, investments and receivables. The Directorate's maximum exposure to credit is limited to the amount of these financial assets net of any allowance made for impairment. This is shown below in the table 'Maturity Analysis and Exposure to Interest Rates'.

Cash and investment accounts are held with high credit quality financial institutions under whole-of-government banking arrangements. Cash at the bank is held with the Commonwealth Bank and cash not immediately required is invested with the Territory Banking Account. The Treasury Directorate coordinates the investment of this money with various fund managers. These fund managers have the discretion to invest money in a variety of different investments within certain parameters.

Most of the receivables consist of Goods and Services Tax (GST) refund due from the Australian Taxation Office (ATO) and ACT Government Agencies which has a strong credit history. Credit risk for investments is managed by the Directorate through only investing with the Territory Banking Account, which has appropriate investment criteria for the external fund manager engaged to manage the Territory's surplus funds and therefore credit risk is considered to be low.

**Liquidity Risk**

Liquidity risk is the risk that the Directorate will not be able to meet its financial obligations as they fall due.

The Directorate's maximum exposure to liquidity risk is shown below in the table later in this note on 'Maturity Analysis and Exposure to Interest Rates'. This note discloses when the Directorate expects its financial assets and financial liabilities to mature.

**FOR THE YEAR ENDED 30 JUNE 2012**

**36. Financial Instruments - Continued**

**Liquidity Risk - Continued**

Appropriations received to fund operations are drawn down progressively throughout the year to meet the operating requirements. Under the cash management framework, the Directorate cannot hold excess cash, however, in the event of cash pressure, access to additional funding can be obtained from the Treasury Directorate.

**Price Risk**

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market price (other than arising from interest rate risk or currency risk).

The only price risk which the Directorate is exposed to results from its investments in the fixed interest and cash enhanced portfolio. The Directorate has units in the fixed interest portfolio that fluctuate in value. The price fluctuations in the units of the fixed interest portfolio are caused by movements in the underlying investments of the portfolio. To limit price risk, all bonds that make up the underlying investments of the fixed interest portfolio must have a long term credit.

The Directorate's exposure to price risk and the management of this risk has not significantly changed since last reporting period. A sensitivity analysis has not been undertaken for the price risk of the Directorate as it has been determined that the possible impact on profit and loss or total equity from fluctuations in price is immaterial.

**Currency Risk**

Currency risk is the risk that the fair value on future cash flows of a financial instrument will fluctuate because of changes to foreign currency rates.

The Directorate is not exposed to currency risk as all of its transactions are conducted in Australian dollars.

**Unrecognised Financial Assets and Financial Liabilities**

There were no unrecognised financial assets and liabilities.

**Fair Value Hierarchy**

The Directorate is required to classify financial assets and financial liabilities into a fair value hierarchy that reflects the significance of the inputs used in determining their fair value. The fair value hierarchy is made up of the following three levels:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

**Transfer between Categories**

There have been no transfers of financial assets or financial liabilities between Level 1 and Level 2 during the reporting period.

**Maturity Analysis and Exposure to Interest Rates**

The following tables set out the Directorate's maturity analysis for financial assets and liabilities as well as the exposure to interest rates, including the weighted average interest rates by maturity period as at 30 June 2012 and 30 June 2011.

All financial assets and liabilities which have a floating interest rate or are non-interest bearing will mature in 1 year or less. All amounts appearing in the following maturity analysis are shown on an undiscounted cash flow basis.

The Directorate does not hold any collateral as security relating to financial assets.

**37. Interest in Joint Venture**

Gold Creek Primary School operates adjacent to the Holy Spirit Primary School that is operated by the Catholic Education Office. Both schools share joint facilities including a hall/gymnasium, canteen, library, car park and meeting rooms. The shared facilities are managed by a Joint Facilities Management Committee through a formal agreement between the ACT Government and the Catholic Education Office. All assets and liabilities relating to the shared facilities are owned by the ACT Government and Catholic Education Office in accordance with the participating share of each party, which is 53% for the ACT Government and 47% for the Catholic Education Office. The joint venture is accounted for using the equity method.

**1. Unallocated Cash and Cash Equivalents**

Cash and cash equivalents have been included in the 'Unallocated' column above as this class cannot be reliably attributed to the Directorate's output classes. As the amount in cash and cash equivalents held by the Directorate is comprised of a number of disparate components, no single allocation driver can be used to reliably attribute this asset class. The components include working capital, cash for un-presented cheques, and for specific purpose payments.

1. *The difference between the original budget and the total amount appropriated relates to increased Commonwealth grants (\$3.170m) and the rollover of funds for the Interest Subsidy Scheme (\$0.934m). The increased Commonwealth grants relate to National Partnership Programs for Support for Students with a Disability, Empowering Local Schools, Reward for Great Teachers and general recurrent grants.*

*The difference between the total appropriated and appropriation drawn mainly relates to Commonwealth grant savings (\$2.692m) primarily associated with the Trade Training Centres National Partnership and the rollover of funds for the Interest Subsidy Scheme and Reward for Great Teachers into 2012-13 (\$2.568m). In addition, there has been lower than anticipated drawdown due to the use of opening cash (\$0.631m) and lower than budgeted payments primarily relating to the Bursary Scheme.*

**Terms, Conditions and Accounting Policies**

Details of the significant policies and methods adopted, including the criteria for recognition, the basis of measurement, with respect to each class of financial asset and financial liability are disclosed in **Note 2 - Summary of Significant Accounting Policies**.

**Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The financial assets held by the Directorate on behalf of the Territory consist of cash and cash equivalents and receivables and its financial liabilities are comprised of payables. As cash, receivables and payables are held in non-interest bearing arrangements, the Directorate on behalf of the Territory is not exposed to movements in interest rates in respect of these financial assets and liabilities, as shown in the table 'Fair Value of Financial Assets and Liabilities'.

As all financial assets and liabilities are held in non-interest bearing arrangements, a sensitivity analysis of interest rate risk is not required.

**Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Financial assets consist of cash and receivables. The Directorate on behalf of the Territory's maximum exposure to credit risk is limited to the amount of these financial assets net of any allowance made for impairment. This is shown below in the table 'Maturity Analysis and Exposure to Interest Rates'.

All receivables relate to either Commonwealth, ACT or non-government agencies which have strong credit histories (most receivables consist of Goods and Services Tax (GST) refunds due from the Australian Taxation Office). Credit risk is therefore considered to be low.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS**  
**ON BEHALF OF THE TERRITORY FOR THE YEAR ENDED 30 JUNE 2012**

**48. Financial Instruments - Continued**

**Liquidity Risk**

Liquidity risk is the risk that the Directorate on behalf of the Territory will not be able to meet its financial obligations as they fall due.

Expenses on Behalf of the Territory appropriations are drawn down progressively throughout the year to meet operating requirements. In the event of cash pressure, access to additional funding may be obtained from the ACT Government.

**Price Risk**

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market price.

The Directorate on behalf of the Territory is not exposed to price risk as its financial assets, consisting of cash and receivables are not affected by movements in market price.

**Currency Risk**

Currency risk is the risk that the fair value on future cash flows of a financial instrument will fluctuate because of changes to foreign currency rates.

The Directorate on behalf of the Territory is not exposed to currency risk as all of its transactions are made in Australian dollars.

**Unrecognised Financial Assets and Financial Liabilities**

There were no unrecognised financial assets and liabilities.

Ms Diane Joseph  
Director-General  
Education and Training Directorate  
Level 6, 220 Northbourne Avenue  
BRADDON ACT 2612

Dear Ms Joseph *Diane*

#### REPORT OF FACTUAL FINDINGS - EDUCATION AND TRAINING DIRECTORATE STATEMENT OF PERFORMANCE FOR THE YEAR ENDED 30 JUNE 2012

The Audit Office has completed the review of the statement of performance of the Education and Training Directorate for the year ended 30 June 2012.

I have attached the statement of performance and unqualified report of factual findings.

I have provided a copy of the statement of performance and report of factual findings to the Minister for Education and Training, Dr Chris Bourke MLA.

Yours sincerely

Dr Maxine Cooper  
Auditor-General

## ACT AUDITOR-GENERAL'S OFFICE

### REPORT OF FACTUAL FINDINGS

### EDUCATION AND TRAINING DIRECTORATE

#### To the Members of the ACT Legislative Assembly

#### Report on the statement of performance

The statement of performance of the Education and Training Directorate (the Directorate) has been reviewed.

#### Responsibility for the statement of performance

The Director-General of the Directorate is responsible for the preparation and fair presentation of the statement of performance in accordance with the *Financial Management Act 1996*. This includes responsibility for maintaining adequate records and internal controls that are designed to prevent and detect fraud and error, and for the systems and procedures used to measure the results reported in the statement of performance.

#### The auditor's responsibility

Under the *Financial Management Act 1996* and *Financial Management (Statement of Performance Scrutiny) Guidelines 2011*, I am responsible for providing a report of factual findings on the statement of performance.

This review was conducted in accordance with Australian Auditing Standards applicable to review engagements, to provide assurance that the results of the accountability indicators reported in the statement of performance have been fairly presented in accordance with the *Financial Management Act 1996*.

A review is primarily limited to making inquiries with representatives of the Directorate, performing analytical and other review procedures and examining other available evidence. These review procedures do not provide all of the evidence that would be required in an audit, therefore, the level of assurance provided is less than that given in an audit. An audit has not been performed and no audit opinion is being expressed on the statement of performance.

The review did not include an assessment of the relevance or appropriateness of the accountability indicators reported in the statement of performance or the related performance targets.

No opinion is expressed on the accuracy of explanations provided for variations between actual and targeted performance due to the often subjective nature of such explanations.

### **Electronic presentation of the statement of performance**

Those viewing an electronic presentation of this statement of performance should note that the review does not provide assurance on the integrity of information presented electronically, and does not provide an opinion on any other information which may have been hyperlinked to or from this statement. If users of the statement of performance are concerned with the inherent risks arising from the electronic presentation of information, they are advised to refer to the printed copy of the reviewed statement of performance to confirm the accuracy of this electronically presented information.

### **Independence**

Applicable independence requirements of Australian professional ethical pronouncements were followed in conducting the review.

### **Review opinion**

Based on the review procedures, no matters have come to my attention which indicate that the results of the accountability indicators, reported in the statement of performance of the Directorate for the year ended 30 June 2012, are not fairly presented in accordance with the *Financial Management Act 1996*.

This review opinion should be read in conjunction with the other information disclosed in this report.

Maxine Cooper  
Auditor-General

**Education and Training Directorate  
Statement of Performance  
For the Year Ended 30 June 2012**

**Statement of Responsibility**

In my opinion, the Statement of Performance is in agreement with the Directorate's records, fairly reflects the service performance of the Directorate in providing each class of outputs during the financial year ended 30 June 2012 and also fairly reflects the judgements exercised in preparing each output class.

Diane Joseph  
Director-General

## Output Class 1: Public School Education

### Description

Public primary school education is available, on average, for eight years with a preschool age of four years and a kindergarten starting age of five years. A balanced preschool/primary school curriculum covering the early and later childhood education allows students to develop the qualities needed for lifelong learning. Public high school education covers the years 7 to 10. ACT public high schools offer a broad and comprehensive education across all key learning areas. Public secondary college education covers years 11 and 12, offering courses catering for a broad range of student needs and interests.

A range of educational settings are available in the ACT public schools for students with a disability: special needs schools; special classes or units in mainstream schools; and additional support in mainstream classes. The Directorate also provides early intervention programs to children between the ages of two to five years who have a disability or a developmental delay. Early learning and development programs identify and address the physical, emotional, social and educational needs of children from birth to five years.

**Notes to accountability indicator description:**

- The reported results for these indicators are based on the National Assessment Program – Literacy and Numeracy conducted in May 2011.
- This indicator was removed as an accountability indicator by the Notifiable Instrument NI2010-277 in June 2010. The indicator became a strategic indicator and will not be reported under accountability indicators in the future.

**Note to variance explanation:**

- The variance is due to a lower than expected number of enrolments in early intervention programs.

## Output Class 2: Non-government Education

### Output 2.1: Non-government Education

#### Description

The Directorate contributes to the maintenance of standards in non-government schools and home education through compliance and registration, and the accreditation and certification of senior secondary courses through the Board of Senior Secondary Studies. The Directorate also undertakes the administration and payment of the Commonwealth and ACT Governments' grants.

	2011-12 Target	2011-12 Result	Percentage variance from the target	Explanation of material variance (±10% or higher)
<b>Total Cost (\$'000)</b>	4,674	1,840	(60.6)	Note 1

b. Home education registration reviews for provisionally registered children be completed within three months	96%	100%	4.2	
c. Grants paid within the required period of receiving funds from the Commonwealth Government	100%	100%	0.0	
d. Satisfaction with the processes of the non-government Education section <sup>a</sup>	87%	86%	(1.1)	

**Note to accountability indicator description:**

- a. The former Non-Government Education section was merged in the Liaison Unit in early 2012. Stakeholders of the section are non-government schools officials, non-government schools associations, registered home educators and ACT Home educators' network presidents. The stakeholders are surveyed for their satisfaction with the following processes: timeliness of responses to queries; quality of advice; and overall services.

**Note to variance explanation:**

1. The variance is primarily due to the receipt of Commonwealth funding for the Improving Teacher Quality and Literacy and Numeracy National Partnerships in June 2012 and therefore was unspent in 2011-12. The unspent appropriation at the end of the 2011-12 financial year has been transferred for expenditure in 2012-13.

## Output Class 3: Vocational Education and Training

### Output 3.1: Planning and Coordination of Vocational Education and Training Services

#### Description

The Directorate is responsible and accountable for the provision of strategic advice and management of vocational education and training (VET) and higher education in the ACT. This includes administering territory and national funds for a variety of programs addressing skills development for entry level and existing workers as well as adult and community education. The VET system in the ACT responds to the demands and requirements of industry and the community. The Directorate gathers advice from industry stakeholders to predict industry trends and identify the future training requirements of the ACT.

	2011-12 Target	2011-12 Result	Percentage variance from the target	Explanation of material variance ( $\pm 10\%$ or higher)
<b>Total Cost (\$'000)</b>	40,463	29,873	(26.2)	Note 1

<b>Accountability Indicators</b>				
a. Total number of hours under programs available for competitive purchase	1,800,000	2,010,647	11.7	Note 2
b. Total reported number of training commencements under available programs <sup>a</sup>	6,800	6,669	(1.9)	
c. Total number of enrolments of existing workers under additional programs <sup>b</sup>	2,405	2,321	(3.5)	
d. Percentage of apprentices satisfied with their training under Australian Apprenticeships	80%	86%	7.5	
e. Percentage of employers satisfied with their employees' training under Australian Apprenticeships <sup>c</sup>	Not applicable			
f. Retention rate of existing workers training towards a qualification under additional programs	85%	94%	10.6	Note 3

#### Notes to accountability indicator description:

- Refers to Australian Apprenticeships under User Choice Programs and the Priorities Support Program.
- Refers to the Productively Places Program/National Entitlement to a Quality Training Place.
- This indicator was discontinued through Notifiable Instrument NI2010-684 effective from 1 July 2010, as it was based on a national survey which is only conducted once every two years. It will not be reported under accountability indicators in the future.

#### Notes to variance explanations:

- The variance is primarily due to the transfer of funds to 2012-13 to line up with the delivery of training under the Productivity Places Program National Partnership.
- The variance is due to improvements in the recording of VET activity.
- The variance is due to the high number of existing workers, in training at 30 June 2012, who had recently commenced their training. Withdrawals are lower in the early stages of training resulting in a higher retention rate.

## Appendix 4: A10 Triple bottom line report

The ACT Government is committed to sustainable government operations. The ACT Government's framework for sustainability is laid out in *People, Place, and Prosperity*, which uses a triple bottom line approach to sustainability, recognising the interdependence of social, economic and environmental wellbeing.

An essential element of sustainability is transparent reporting. Table A10.1 below compares the Directorate performance in 2011-12 and 2010-11. The table also provides percentage change from 2010-11 to 2011-12.

Notes:

- a. The results for the Economic element represent a Directorate total (figures supplied by Finance and Human Resources).

- b. The results for the Environmental element are based on the four central office sites at 220 Northbourne Avenue in Braddon, Hedley Beare Centre for Teaching and Learning in Stirling, former Higgins Primary School and the Fyshwick Annex.
- c. The decrease in area space is not directly relative to reductions in energy usage.
- d. The results for the 'water' element are significantly lower than 2010-11 due to there being no major water/plumbing issues during 2011-12.
- e. The results for the 'estimate of comingled material recycled (based on bins collected)' are significantly higher due to the increase in comingled recycling for 220 Northbourne Avenue in Braddon after this site became an ACT Smart Office accredited recycler in 2012.
- f. The results for staff receiving influenza vaccinations are based on calendar year as of the close of the scheduled program.

## Appendix 5: C15 Government contracting

All procurement processes in place within the Directorate are required to comply with the procurement legislative framework including the *Government Procurement Act 2001*, *Government Procurement Regulation 2007* and subordinate guidelines and circulars. Confirmation of the procurement selection and management processes is authorised by the appropriate Delegate within the Directorate.

Under whole of government procurement arrangements, Shared Services Procurement continued to provide advice and support in relation to procurement and contract management issues and undertook higher value procurement activities on behalf of the Directorate.

The Directorate continued to be responsible for the management of contracts. Where obligations were not met, including responsibility to comply with employment and industrial relations conditions, the contractor was required to rectify the non-compliance immediately to avoid cancellation of the contract.

Directorate central office expenditure included the acquisition of expert advice regarding curriculum, national assessment testing and other education related matters, human resource issues and capital works activities.

Contract information for schools related mainly to cleaning and grounds maintenance. All contracts were organised through Shared Services Procurement.
